Professional Objective

To obtain my first corporate professional experience as a developer, where I can apply my knowledge of design and front-end development to create responsive websites and apps.

Education

Purdue University | IUPUI

2016 - expected graduation December 2019

GPA: 3.5

Computer & Information Technology Major - Concentration in Web Development

Professional Projects

The Firebase Store - Academic Apr 2019

Conceptualized and implemented a custom e-commerce store from scratch, allowing the user to sign up, log in, add items to the cart, and purchase items. (React.js, Node.js, HTML5/CSS3, Firebase)

Magic the Gathering Web App - Academic Apr 2019

Collaborated with a team of developers to create a custom web app that dynamically renders cards from the Magic the Gathering card game based on user input, including input given to a chatbot. (JavaScript, HTML5/CSS3, Bootstrap, Diagflow, Firebase)

MVC Pro Blog - Academic Sep 2018 - Nov 2018

Implemented a blog from scratch using a hand-coded custom MVC framework that allows users to register, log-in/out, view all blog posts in precise detail, and view all members. There is also admin functionality to add, edit, or delete blog posts, and a local secure database that stores all user and blog data. (HTML5/CSS3, JS, PHP, SQL, MVC design pattern)

Beach Resort - Independent May 2018

Extended functionality upon a template website to allow end-users to log-in and register, which made the website dynamic. (JS, PHP)

Professional Experience

Freelance Web Development

Aug 2016 - Present

- Visualize and create custom web pages for clients from ideation, code creation, implementation, distribution, and maintenance.
- Collaborate with industry professionals that specialize in back-end and graphic design stacks.

Fresh Thyme Farmers Market

Jan 2019 - Present

- Enhance the overall quality of the produce section by carefully removing expired product and restocking displays
- Deliver on all expectations from management, including excellent customer service

Professional Volunteer Work

Vice-President & Treasurer of the Applied Computing Club

Aug 2018 - Present

- Official club of CIT majors, main focus is to learn trending technologies
- Responsible for scheduling, managing, and applying for club funding (2018)
- Pioneered a collection of open-source projects for IUPUI students to collaborate on (2019)
- Developed and continue to update the club's official website - acclub.us
